Mrs. Joanne Jensen, Librarian.

The services rendered by this large and attractive library are described in the literature attached. And, since you are reading these materials in the Library, you are in the best position to ask additional questions.

You may have a special field of interest - and may wish to learn all you can about it. If you do, the Library is the best place for you. If they do not have all the books or audio materials that would be helpful to you, they will borrow them for you from another library. They will make available to you a good part of the knowledge available in any given field. And in return for such service, they ask nothing but good care and conscientious return of their materials.

Mrs. Bernice Kandron is in charge of Adult Programming and Mrs. Lynne Howe in charge of Children's Programming.
